

Charter School Pandemic Plan

March 23, 2020

Background

- Many charter schools across the state are not 1:1 and do not have enough computers to send home with students
- For schools in this situation, instruction has effectively stopped
- As the pandemic deepens, it appears more likely that school will not resume for an extended period of time (or at all this school year)

Plan Objectives

- Address charter school needs
 - Student device for instruction
 - Internet filtering
 - Limited scope tech support (attaching device to home WIFI)
- Provide the Charter Institute with a proactive solution for their schools

Plan Framework

- Set-up and logistics (one-time fee per school) @ \$500
 - Install and configure Cisco Umbrella for Internet filtering
 - Set-up limited scope tech support service desk
- Monthly rental
 - Chromebook @ \$20
 - Internet filtering @ \$5.00
 - Limited scope technical support @ \$10
 - Attached device to home WIFI
 - Report misuse to school leaders
 - Shipping Chromebook to and from school @ \$5
